## ART OF SPICE

Vibhor Sogani's 'Aroma' is a 35-foot-tall light installation with mirror finished stainless steel balls. The floating 'aroma rings' of light seem to enlarge as they move. The installation celebrates the role of spice-making as a work of art, and pays homage to those who are deeply involved in this undertaking. [vibhorsogani.com](http://vibhorsogani.com)

## Magic in the mirror

Iqrup + Ritz's Carlo mirror pays homage to the forms and details frequented by architect Carlo Scarpa. Gold and teak finishes in the design combine to add an additional tactile dimension to this elegant mirror. [iqrupandrutz.com](http://iqrupandrutz.com)

## Feeling green!

The stunning Willa watch from Michael Kors is all that you need to accessorise a plain outfit. The Willa is crafted with python-embossed leather and showcases a minimalist face that's framed by marbled acetate. [michaelkors.com](http://michaelkors.com)

## Spiral effect

Jazz up a dull nook in your home with this Olivia flower vase from Evok's festive collection. The black and gold combination is ideal for both traditional and contemporary spaces. The range also features vases in monochromatic and copper shades. [evok.in](http://evok.in)

## Bleeding steel

This stunning piece of artwork by artist Subir Hati showcases metamorphosis and its link with our life. Crafted in steel, Subir explores architecture, jewellery, furniture and textile to 'design' this interesting artwork. Available at [Arttidinox.com](http://Arttidinox.com)
